BENEFITS OF THE JET ACCESS PRODUCT

RISK-FREE

With CitationAir Jet Access, there is no aircraft ownership, thereby eliminating any concerns about future residual values. With no capital commitment, your money isn’t locked into an asset and can be working for you in more advantageous ways. What’s more, you can “walk away” after the first 12 months and then every year thereafter on your contract anniversary.

SIMPLE PRICING

Pricing consists of two components:

- Annual Access Fee — guarantees access to your chosen aircraft model and can be paid annually at a 3% discount or in equal monthly installments
- Flight hourly rate and fuel costs — incurred on an as-you-fly basis

FLEXIBLE

Our Jet Access product has a high degree of flexibility built in. Customers can purchase additional hours as needed, carry unused hours to the following year, and adjust the annual hours commitment and aircraft type once a year. You can also fly on other aircraft types on an as available basis at attractive Jet Access rates.

EUROPE & MIDDLE EAST EXPANSION

Through our alliance with Air Partner plc, Jet Access customers can now access flights in Europe and the Middle East as part of their Jet Access account for a minimum 10 hour commitment. Terms and conditions vary, contact your Sales Representative for additional information.
