

# ADDED VALUE

## JAUNT PROGRAM

The Jaunt program enables CitationAir Jet Shares customers to purchase incremental flight hours at special rates or secure an aircraft outside of their program. Upgrades and downgrades are guaranteed except during peak periods, when the program is not available. There are no contracts or agreements to sign and no registration process.

All Jaunt flights are operated by CitationAir under its FAR Part 135 Air Carrier Certificate.

# JET SHARES

CitationAir™ has simplified fractional ownership with our Jet Shares program, offering individuals and businesses all the benefits of whole aircraft ownership at a fraction of the cost, and with none of the aircraft management responsibility.

## **SIMPLICITY**

Jet Shares simplifies the payments of all operating rates by combining them into one predictable cost. This price can be split into equal monthly payments or billed as one annual payment at a further discount. There are no repositioning fees or hidden costs of any kind.

## **SAVINGS**

Traditional fractional programs allow flights on any day of the year. What they don't do is differentiate between the cost of flying on the slowest days versus the busiest days. With Jet Shares, you simply choose which option best fits your needs. Our full-access 365-day option allows you to fly any day of the year without paying a premium. The Jet Shares 335-day option offers you the ability to save money based on your travel day flexibility, while giving you the comfort of knowing you can fly any day of the year.

## **FLEXIBILITY**

By purchasing a share in a particular aircraft, you gain instant access to our fleet of Cessna Citations, known for their reliability, comfort and great value. You are guaranteed to fly in the aircraft type purchased, but have access to our entire fleet. Upgrades and downgrades are available upon request and are subject to availability.

## **CONTRACT TERM**

Our standard contract term is five years. Anytime after the first year, customers have the option of selling back their interest to CitationAir for the Fair Market Value at the time, less a modest remarketing fee.
