

PERFORMANCE

On takeoff, the thrust of the twin Pratt & Whitney engines feels reassuring. In the air, the capabilities of this aircraft shorten flight time.

Yet, even with its size and power, the Sovereign has a better short field capability than any other super mid-size jet, allowing you access to a greater number of airports.

Its time-saving versatility can mean cost-saving opportunities.

CONVENIENCE

At 100 cubic feet, the Sovereign's external baggage capacity is voluminous, the largest of any super mid-size jet. Its large exterior baggage compartment provides for more interior cabin space.

COMFORT

Because the Sovereign can perform lengthy trips, the interior was strategically designed for ultimate comfort.

The wide aisle and stand-up cabin allows you to move freely.

VALUE

Cessna Citations have historically held their value better than any other comparable aircraft.

SOVEREIGN

CESSNA CITATION

If you travel longer distances with 9 passengers or less, then this is *where you belong*.

MAXIMUM PASSENGERS	9
MAXIMUM SPEED (MPH)	528
MAXIMUM ALTITUDE IN FEET	47,000
CABIN DIMENSIONS IN INCHES	66W/303L/68H
MAXIMUM RANGE IN STATUTE MILES	3,021
INTERIOR BAGGAGE IN CUBIC FEET	35
EXTERIOR BAGGAGE IN CUBIC FEET	100

Actual ranges will vary based on present day conditions, speed, number of passengers and baggage. The range assumptions above contemplate statute miles, standard atmospheric conditions, historic wind averages, CitationAir fuel reserves, and standard baggage at 30 pounds per passenger.
